Ayvalık Standard Press

Nov–Dec · Polyphenols >200 mg/kg · Free Acidity ≤ 0.5% · Mild, smooth profile

The KALA 15L Catering Drum is produced from Ayvalık Zeytinyağı — one of the world's most acclaimed extra virgin olive oil varieties, native to the Aegean coast of Turkey. All varieties are cold-extracted within 4 hours of harvest. Format changes. Specification does not. Annual allocation contracts lock preferred pricing and Q4 harvest supply.
